

NILM2016

MAY 14 –15 | VANCOUVER, CANADA

CALL FOR PAPERS

<http://nilmworkshop.org/2016/>

The 3rd International Workshop on Non-Intrusive Load Monitoring (NILM) will be held in Vancouver, Canada from May 14 to 15, 2016. The venue for the workshop is still under consideration. Last workshop was held June/2014 at the University of Texas, Austin, in Austin, TX.

The mission of this workshop is to create a forum that can unite all the researchers that are working on the topic of energy disaggregation. The main objective of this event is to review the main types of approaches that have been explored to date to solve the problem of electricity disaggregation, and to then discuss possible paths forward knowing what has been tried and what has yet to be experimented. We also intend to have a group discussion about possible solutions to the growing need for standardized datasets and performance metrics that can allow the field to move forward, as well as possible areas of collaboration among different research groups.

We invite all researchers working on NILM-related topics to submit 4-page papers to the conference for oral presentation or presentation during a poster session. All submissions must use [IEEE style files](#) for LaTeX or Word. We encourage authors to submit papers on research that is ongoing or contains recent results: as the workshop will only include online proceedings, submission to the workshop will not prevent any material from being submitted later to a journal or conference.

The agenda for the NILM2016 is still being defined, but the current proposal is to have two full-days of activities. There will be working groups, presentations from paper submissions and a poster session. We will have a keynote and invited speaker you won't want to miss!

GENERAL CHAIR

Stephen Makonin, Simon Fraser University

LOCAL WELCOMING CHAIR

Andrew Berrisford, BC Hydro

STEERING COMMITTEE

Mario Berges, Carnegie Mellon University

J. Zico Kolter, Carnegie Mellon University

Oliver Parson, University of Southampton

Stephen Makonin, Simon Fraser University

Jack Kelly, Imperial College

Nipun Batra, IIT Delhi

WORKING GROUPS CHAIR

Jack Kelly, Imperial College

TECHNICAL PROGRAM CHAIR

Oliver Parson, University of Southampton

Keynote Speaker: George W. Hart

"Life After NILM"

Invited Speaker: Robert Sonderegger, Itron

"The RIVA Meter"

IMPORTANT DATES

Paper Submission Deadline: February 14

Notification of Acceptance: February 26

Final Paper Submission Due: March 6

Registration Deadline: March 6

Registration Fee:
