

# CALL FOR PAPERS

<http://nilmworkshop.org/2018/>

The 4th International Workshop on Non-Intrusive Load Monitoring (NILM) will be held at the University of Texas, Austin, in **Austin, Texas** in **late February or early March 2018**. The exact date is still being confirmed, and will be announced on our website at the end of November 2017. As in 2014, this workshop will be co-located with the Pecan Street Annual Research Conference. Last workshop was held June/2014 at Simon Fraser University in Vancouver, Canada.

## WORKSHOP MISSION & OBJECTIVES

The mission of this workshop is to serve as a forum for bringing together all the researchers, practitioners, and students that are working on the topic of energy disaggregation around the world.

## PAPER FORMAT & STYLE

We invite all researchers working on NILM-related topics to submit 4-page papers to the conference for oral presentation or presentation during a poster session. All submissions must use [IEEE style files](#) for LaTeX or Word. We encourage authors to submit papers on research that is ongoing or contains recent results: as the workshop will only include online proceedings, submission to the workshop will not prevent any material from being submitted later to a journal or conference.
